

VANGUARD CHARITABLE ENDOWMENT PROGRAM

POOL PERFORMANCE –FOURTH QUARTER 1999

(Period ended December 31, 1999)

The chart below shows, for the quarter ended December 31, 1999, the total returns for the three investment pools of the Vanguard Charitable Endowment Program: the Gift Preservation Pool, the Moderate Growth Pool, and the Growth Pool. For the sake of comparison, we also present returns for each pool's benchmark – a composite index weighted to reflect each pool's mix of assets.

Note that the pool returns are based on the total returns of the Vanguard mutual funds in each pool, minus the assessment that covers the Endowment Program's expenses. The total return of each underlying mutual fund includes change in share price and reinvestment of dividends and capital gains, minus the fund's expenses. These adjustments must be accounted for when reading the performance comments that follow.

The investment returns of the Gift Preservation Pool and the Growth Pool performed well, with both Pools meeting their respective benchmarks during the final quarter of 1999. The Moderate Growth Pool's bias toward value-oriented equities resulted in a continued deficit compared to its benchmark.
