

## POOL PERFORMANCE – FOURTH QUARTER 2002

(Period ended December 31, 2002)

Performance of the Endowment Program's investment pools during the fourth quarter of 2002 reflected a broad-based recovery in domestic equity markets in the fourth quarter. All pool returns improved markedly over third quarter results, except for the Gift Preservation Pool, which felt the effect of a cut in the Fed funds rate.

Note that pool returns are based on the total returns of the Vanguard mutual funds in each pool, net of four components: 1.) the Endowment Program's expenses; 2.) the fund's expenses; 3.) change in share price; and 4.) reinvestment of dividends and capital gains.
